

9 Assembly: Manual & Automated ASSY

PROCESS DESCRIPTION

CAPABILITIES

		<u>Brazil</u>	<u>Romania</u>	<u>China</u>
Automated drilling	→ Antropomorphic	10 000m2	5 000m2	7 000m2
Manual riveting	→ Shop Floor	1x 6 axis Robot	1x 6 axis Robot	1x 6 axis Robot
Painting (top coat)	→ Painting Booth	Up to 8m	Up to 8m	Up to 9 m
Laser inspection	→ Measurement Lazer	Leica-Faro	Leica-Faro	Leica-Faro

PRODUCT IDENTIFICATION

- Wing moveables
- Fuselage panels
- Nacelles

QUALIFICATIONS

- NADCAP : all special processes (incl. composite, NDT and painting)
- EN 9100
- ISO 14001
- EASA Part 21G

DIFFERENTIATION

- Price attractiveness
- Proven track record in swift and smooth transfer of work (eg.: A320 packages, transferred from BE to ROM, as second supply chain)
- SONACA Group state of the art configuration management
- SONACA Group experience to support the industrialization of complex parts
- Complex supply chain organization & execution entirely supported by SONACA Group
