

Junior PLM Business Analyst (IT)

Turda, Cluj, Romania

Sonaca Romania is a top tier **aerospace manufacturer** (Airbus, Embraer, Ariane 6 Rocket), part of Sonaca Group (Belgium) and has opened in 2025 the second factory near **Turda (Cluj)**, with ambitious plans to grow its team to almost double the current size.

In this context, **the IT department** is looking for a new colleague to join the team, in the role of an **PLM Business Analyst**.

The **PLM Business Analyst** will work as part of an international IT team to develop and maintain applications and solutions supporting the product development and industrialization processes within the Sonaca Group. The main technology used is Teamcenter. This position is part of the Group's IT department supporting Sonaca's engineering activities.

ROLES AND RESPONSIBILITIES :

- Collaborate with members of various IT teams, business Key Users, and suppliers to ensure support and improvement of IT systems supporting company processes
- Promote the IT solutions/applications used at Sonaca headquarters for future needs of local entities
- Provide appropriate support to Key Users and end users in their daily use of PLM solutions
- Plan and manage small projects, escalate incidents, and report on activity progress regularly and appropriately
- Define and document functional specifications for solutions requiring specific developments
- Configure or develop applications to implement business processes and complete configuration documentation
- Lead and/or conduct acceptance testing phases for implemented solutions
- Promote Agile methodologies within the organization and use these processes to improve team and organizational efficiency

JOB REQUIREMENTS :

- Bachelor's degree in IT or a related field
- Strong analytical and communication skills.
- Knowledge of PLM tool administration (Teamcenter is a plus)
- Experience integrating third-party applications into PLM
- Creation tools: **CAD, CAM, Simulation tools**
- Other platforms or ESB: ERP, MES, QMS
- Experience with aerospace industry development processes is a plus.
- Project management skills are an asset (PMI, Prince2, SCRUM, ...)
- Process-oriented

- Ability to operate in a constantly evolving environment
- **English** is mandatory; French & Portuguese are an advantage
- Solution-oriented & learning quickly
- Perseverance & problem-solving
- Priority setting & time management

What you will find here:

- A great team to work with
- Lots of learning opportunities
- Excellent work-life balance
- Possibility to work from home 2 days/week
- Flexible working hours
- A role exposed to executive communities inside & outside the organization

If all this sounded good and you want to join our team, send your resume now at sat.recrutare@sonaca.com with **subject** PLM Business Analyst!
